

# Exfoliating & Clarifying UltraMUD™

## OVERVIEW

This clinical strength treatment combines the exfoliating and cleansing properties of both a mud mask and peel. This mask helps clear the way for a softer, brighter skin appearance. Salicylic, mandelic, and glycolic acids are blended together to unclog pores and build-up, target fine lines, and promote collagen production.

## BENEFITS

- Salicylic acid, a Beta Hydroxy Acid (BHA) is oil-soluble which makes it ideal for the acne-prone. It reduces oiliness and pore build-up since it is able to penetrate through the oil unlike its AHA counterpart. This aids in reducing sebaceous follicle blockage to help reduce the occurrence of future breakouts.
- Glycolic acid is an AHA that is best for improving texture and reducing the appearance of lines. Derived from sugar cane, glycolic acid's anti-aging benefits come from its small molecular size that can deeply penetrate the skin. It's useful for a host of skin conditions from pigmentation issues, uneven texture, acne scarring, and wrinkles and fine lines.
- Mandelic acid helps treat a wide range of issues from acne, scarring, fine lines and wrinkles. Because it has a larger molecular size compared to other AHAs, it is able to gently exfoliate the skin with less chance of post-peel inflammation or hyperpigmentation.
- Azelaic acid is naturally found in grains like rye, wheat, and barley. It is a dicarboxylic acid and is especially good at evening out pigmentation and improving skin tone. It blocks keratin production which can help lessen the occurrence of clogged pores and help reduce breakouts.
- Tea tree oil has been proven effective in reducing acne bacteria and is a natural alternative to benzoyl peroxide. It is an essential oil extracted from the leaves of the *Melaleuca Alternifolia* tree native to Australia.
- Pumpkin includes a variety of nutrients, antioxidants, and essential fatty acids. Beta-carotene has been shown effective in helping skin conditions such as dry skin, eczema, and psoriasis, while vitamin E, A, and C boost moisture and repair damage. It contains natural acids and enzymes that encourage cell turnover and promote elastin production.

## Ingredients

Deionized Water, Kaolin, Propylene Glycol, Montmorillonite (Bentonite), Magnesium Aluminum Silicate, Glycolic Acid, Salicylic Acid, Mandelic Acid, Azelaic Acid, *Euterpe Oleracea* (Acai) Fruit Extract, *Cucumis Sativus* (Cucumber) Extract, *Camellia Sinensis* (Green Tea) Extract, *Matricaria Recutita* (Chamomile) Flower Extract, *Symphytum Officinale* (Comfrey) Extract, *Ananas Sativus* (Pineapple) Extract, *Cucurbita Pepo* (Pumpkin) Extract, *Melaleuca Alternifolia* (Tea Tree) Leaf Oil, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol, Fragrance

## Main Ingredients

Glycolic Acid  
Salicylic Acid  
Mandelic Acid  
Azelaic Acid  
Kaolin Clay  
Bentonite  
Tea Tree Oil

## Performance Ingredients

Acai Berry  
Green Tea  
Cucumber  
Chamomile  
Comfrey  
Pumpkin

## Available Sizes

2 fl oz. € 60g
