

Anti-Aging Resurfacing Cleanser

OVERVIEW

Formulated to thoroughly cleanse and prep the skin for a peel, this cleanser deeply exfoliates while our combination of acids firm, smooth, and brighten the appearance of the skin.

BENEFITS

- TCA (trichloroacetic acid) can reach both the epidermis and dermis levels of the skin and is best for customers with scarring, deep wrinkles, or moderate to severe pigmentation issues.
- Retinoids have been proven effective in aiding the skin with pigmentation issues, scarring, reducing fine lines, and improving skin texture.
- Glycolic acid penetrates the skin and breaks down the bonds between your skin cells allowing for better exfoliation and rejuvenation. As an AHA, it promotes brighter, smoother, and a more even-toned appearance.
- Malic acid, derived most notably from apples, is an AHA that acts as a mild exfoliator. Its ability to clear pores, stimulate cell rejuvenation, and increase skin hydration make it a suitable acid for all skin types.
- Citric acid, a natural compound found in different fruits and vegetables, but most notably in citrus fruits, is a mild acid that helps shrink pores, brighten, and correct dark spots and light scarring.
- Licorice root extract helps to naturally inhibit melanin production through the antioxidant glabridin to provide a skin lightening boost, and has been shown to help reduce the appearance of pigment irregularities such as age spots, sun damage, or freckles.
- Bearberry extract contains arbutin. Arbutin is a natural skin brightener that blocks the production of tyrosine, which is responsible for producing melanin. It is a natural remedy for hyperpigmentation and uneven skin tone.
- Tea tree oil has been proven effective in reducing acne bacteria and is a natural alternative to benzoyl peroxide. It is an essential oil extracted from the leaves of the Melaleuca Alternifolia tree native to Australia.

Ingredients

Deionized Water, Sodium C14-16 Alpha Olefin Sulfonate, Glycolic Acid, Cocamidopropyl Betaine, Acrylates Copolymer, Trichloroacetic Acid, Malic Acid, Citric Acid, Glycol Stearate SE, Glycol Distearate, Propylene Glycol, Arctostaphylos Uva-ursi (Bearberry) Extract, Canaga Odorata Flower (Ylang-Ylang), Glycyrrhiza Uralensis (Licorice) Root Extract, Aspalathus linearis Leaf (Rooibos) Extract, Achillea Millefolium (Yarrow) Extract, Salix alba (Willow Bark) Extract, Glycine Soja (Soybean Seed) Extract, Camelia Sinensis (Green Tea) Extract, Matricaria Recutita Flower (Chamomile) Extract, Symphytum Officinale Leaf (Comfrey) Extract, Diazolidinyl Urea (and) Iodopropynyl Butylcarbamate, Lavandula Angustifolia (Lavender) Oil, Retinyl Palmitate, Melaleuca Alternifolia (Tea Tree) Leaf Oil, L-Arginine, L-Glutamine

Main Ingredients

Glycolic Acid
TCA
Retinol
Malic Acid
Citric Acid

Performance Ingredients

Tea Tree Oil
Lavender
Green Tea
Willow Bark
Licorice
Bearberry

Available Sizes

4 fl. oz. e 120g
